

BREEAM New Construction 2011 Explained

Thursday 15th December 2011 6pm – 8pm

(5.30pm Registration for a 6pm start)

Birt Acres Lecture Theatre, Cardiff University, 1st Floor, Bute Building, King Edward VII
Avenue, Cardiff, CF10 3NB

The BREEAM 2011 version replaced BREEAM 2008 as the current version for new building assessment registrations and certifications from July 2011.

This seminar by Fforwm BREEAM, in association with Wales' Low/Zero Carbon Hub, will explain the process of BREEAM 2011 assessments and certification, highlighting the updated targets and process requirements against BREEAM 2008.

All interested parties are invited to attend this event, including assessors, clients, contractors, design team professionals as well as local authority officers.

This is the first of four planned events around Wales covering this issue, future dates and venues to be confirmed

Light refreshments will be provided

Fforwm BREEAM is an affiliation of independent BREEAM/ EcoHomes / Code Assessors based in Wales. We aim to achieve our mission statement by increasing awareness of the Building Research Establishment Environmental Assessment Method for domestic and non-domestic developments within the Principality, by explaining the process of certification and providing a centre of expertise to all interested parties,
