

Sub-contractor Event

Date: Monday 28 November, 12:30

Location: Crowne Plaza, Birmingham NEC, B40 1PS

Magnox Limited is developing commercial arrangements to cover its requirements for construction and related work over the next ten years. Tenderers for the 'Construction Infrastructure and Enablers Strategic Framework' (CIESF) have been selected and the tender process is ongoing.

The scope of CIESF encompasses requirements for design, construction, modification, repairs and refurbishment of buildings, structures and infrastructure.

Potential sub-contractors are invited to meet the tenderers at the event in order to build relationships and form bidding teams. Alternatively, interested parties can register their interest and provide supporting information in a standard format via the Magnox Ltd website.

In either case, download a form from www.magnoxsites.com/suppliers and return to: matthew.dally@magnoxsites.com by 18th November 2011.
