bre

BIM Level 2 Business Systems Certification

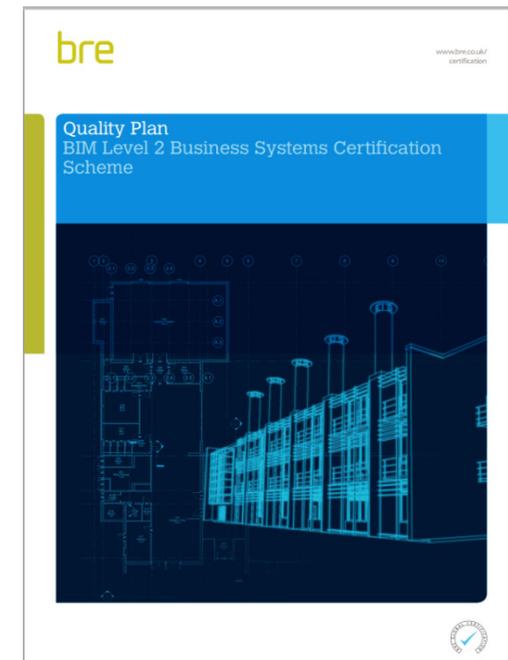

For Companies...

How does your business benefit?

Fulfils the requirement for employers to carry out a BIM capability assessments in PQQs by showing that your business has the following in place:

- Company Professional Skills and Services
- BIM Skills / Training / Inductions
- I.T. Strategy and Infrastructure
- Software tools
- Compliance with PAS 1192-2:2013 and BS 1192:2007 Standards, methods and processes
- CAD / BIM documentation
- CDE / BEP Case study

Business scheme benefits

- Audited Business Evaluation
- BRE Certificated
- Defined Industry Benchmark
- The Scheme is awaiting PAS 91 Accreditation, (the Construction Industry's standard pre-qualification questionnaire.)

Business scheme benefits

- Lean Process
 - Reduces Employers Effort/Cost
 - Reduced Supply Chain Effort/Cost
- The scheme has been checked by Industry Specialists and is supported by BuildingSMART UKI

Business scheme benefits

Listing on the BRE website so your potential customers can find and contact you:

BIM Level 2 Certificated Businesses

The following Businesses have met the requirements of BIM Level 2 Business Systems Certification Scheme:

Certificate Number	Company Name	Location Certificated	Website
BREB00001	BDP	16 Brewhouse Yard, Clerkenwell, London	www.bdp.com

For details on how to join the BRE Global Ltd Level 2 Business Systems Certification Scheme, [please click here](#).

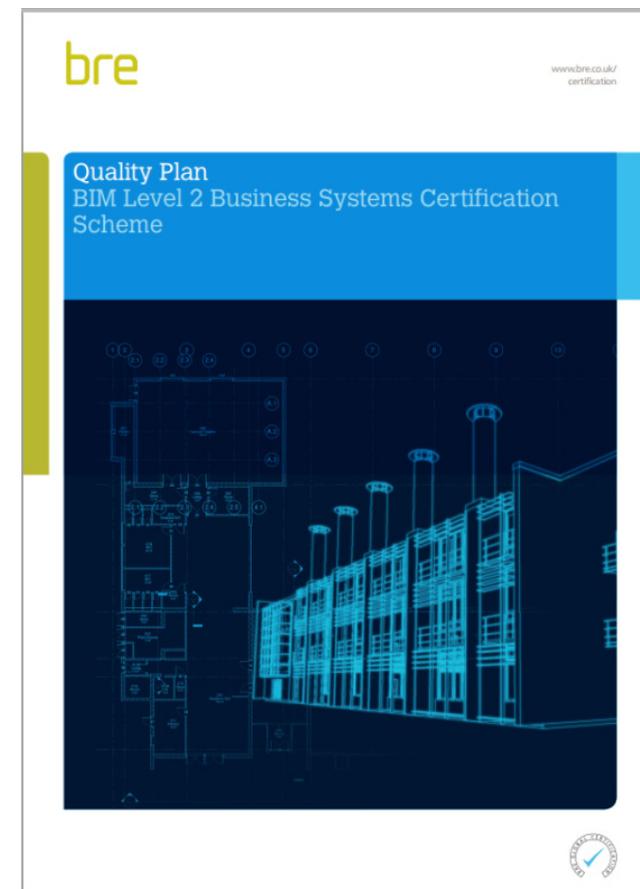

Business scheme benefits

- Get your business ready for 2016 and stand out from the rest of the BIM crowd

How is the scheme run?

- Our Quality Plan demonstrates in detail how the Scheme is run and maintained. Download from www.bre.co.uk/BIM
- Scheme documents and fee sheets are also available for your reference.

How do I join the scheme?

- buildingSMART UK & Ireland

BIM Level 2 Business Systems Certification

The BIM Level 2 Business Systems Certification scheme assesses and certifies businesses as meeting the level of compliance required by an Employer under PAS 1192-2:2013 to deliver a BIM Project. The scheme requires the completion of an online application form followed by the submission of the application fee of £895 upon completion.

The Online application form requires the provision of information in regards to the following areas of your business:

- Company Business and Structure
- BIM Services Provided
- Staff Professional Skills, Certification and Training
- CAD / BIM Skills / Training
- I.T. Strategy and Infrastructure
- Software / CDE Tools
- CAD / BIM Standards Methods and Processes
- Compliance with EIR and BEP Documentation

BRE will then carry out a desktop audit of the documentation submitted to see if the application is compliant with the scope of the scheme and if the application is of the recognised standard then a quotation for an onsite audit is provided. The fee for an onsite audit is dependent upon the complexity of the audit which will be determined once a complete application has been submitted.

If you require further information relating to these costs then we suggest that you carry out the online application form to provide sufficient information so a detailed discussion about your requirements can be carried out.

For help with completing this application form [please watch our tutorial video](#)

Company Details

- Name & Address
- Registration Details etc

The screenshot shows the BRE website's 'APPLY ONLINE' page for BIM Level 2 Business Systems Certification. The page features a navigation menu at the top with categories like 'Services from BRE Global Ltd', 'Certification & Approvals', 'Testing', 'BREEAM', 'Accreditation', 'Research & Innovation', 'Sustainability', 'Events', 'Training', and a search bar. Below the navigation is a large blue banner with the text 'APPLY ONLINE' and a background image of a building's structural framework. A breadcrumb trail indicates the user's path: 'You are here: Home » BIM » BIM Certification with BRE Global » BIM Level 2 Business Systems Certification » Apply online'.

The main content area is divided into two columns. The left column contains a sidebar with links for 'BIM', 'About BIM', 'BIM Certification with BRE Global', 'BIM Level 2 Business Systems Certification', 'Quality Plan', 'Apply online', 'FAQs', 'BIM Level 2 Certified Businesses', 'BIM Level 2 Certified Professional Scheme', 'BIM training with BRE Academy', 'BIM Consultancy with BRE', 'BIM Projects with BRE', and 'buildingSMART UK & Ireland'. The right column is titled 'Company Information' and contains the following form fields:

Company Information
Please provide the following information.

Stage 1

Applicant Organisation
Name of legal entity or sole-trader: BRE BIM Services

Registered Office Address
Address line 1: BRE
Address line 2: Bucknalls Lane
Address line 3:
Town: Watford
County: Herts
Postcode: WD25 9XX
Country: United Kingdom

Contact Name: Paul Oakley
Contact Email: oakleyp@bre.co.uk
Contact Telephone Number: 0333 321 8811

Further Details:
Registration Number if registered with Companies House or equivalent: 123 4567 8
Charity Registration Number: 04045428
VAT Registration Number: 234289
Name of Immediate Parent Company: 0
Name of Ultimate Parent Company: 0
Type of Organisation: Limited Company

Information Technology

- IT policy incorporating BIM?
- ISO Accreditation?

Organisation of Information Technology

Please answer the following questions

Stage 5

Do you have a documented Information Policy/ IT Policy /Security policy and/or standards to deliver BIM requirements appropriate for the products and services and IT operations?

Yes ▼
select..
Yes
No
Yes ▼

Do you have a recognised ISO accreditation in relation?

If so, please give details

ISO 9001 Accreditation

Please upload document to prove this

Please provide the document in the format of a date stamped PDF. If not in PDF format, documents uploaded will not be saved

Choose file 79368 - BIM ...es_EDITS.pdf

IT Strategy

If not based on any recognised international standard, then please answer the following questions.

Are any employees within your organisation solely dedicated to Information Technology?

Yes ▼

If yes, how many?

5

And what are their roles?

IT Manager
Software manager

How is the information Technology / data security function organised in your organisation (centralised or decentralised etc.)?

Centralised

Does your organisation outsource any information system functions?

Yes ▼

If yes, please provide a list of these functions, and details of the organisations involved.

IT Help desk support, managed by
CBA Ltd

Risk Analysis & Management

1. Risk Analysis & Management

Please specify any risks that Clients should be aware of and indicate whether and how these risks are being mitigated.

None

What are your documented data handling, storage & disposal processes?

Network attached storage devices at each location, they are split into separate drives to store different types of data.

Where external or third party companies are used, please provide connection & network topology diagrams (example: where multiple companies are supported or serviced; accepted/preferred method of connection is).

Please provide the document in the format of a date stamped PDF. If not in PDF format, documents uploaded will not be saved

IT Risk diagram.pdf

Please give full details of data backup procedures, including type (full, differential etc), media, schedules, locations, off-site, recovery tests etc.

Daily incremental backups are taken and retained for 10 weeks
Weekly full backups are taken and retained for 18 weeks.

How are attacks on the data storage system defended against /monitored?

We use firewalls and logs are monitored regularly, SSL VPN applications to monitor information exchange.
Passwords are 10 characters

Do your employees (permanent, temporary and contract) sign a document indicating they have read and understood your organisations security and privacy policies?

Yes

Communication and Operations Security

2. Communications & Operations Security

Please provide a concise summary of IT operations arrangements for the IT involved in the products and services to be provided

BRE directly employs 18 staff dedicated to support IT for the business comprising:
2 2nd line engineers, 2 Project

Are the operational staff who manage the platform / service located in the same premises as the platform / service infrastructure?

Yes

If not, please provide summary details.

Please provide details of internet connectivity and associated architecture within your company.

All offices have access to a 30mb connection provided from ABC ISP. There is a Checkpoint firewall, Blue coat proxy and an

Are operating systems, databases, and applications hardened to a standard build configuration?

Yes

What types of malicious code and malware detection software do you use?

Endpoint protection from A

Where is the software deployed

To all end user appliances

What is the update mechanism for the software?

In each office for the purpose of speeding up installs and builds an SCCM distribution point is utilised. All software packages go

Please provide details of the IT Support services available to your employees engaged in BIM projects.

All services including help desk are available to employees and they are led through them during induction into the business and

If not already provided, please provide details of the type and age of equipment and associated infrastructure to be used to provide services (e.g. PC, server and network hardware, OS, Service Pack, Application versions.)

All workstations range from three years old to date and run the Windows seven operating system, all new machines are up

IT Incident Management

3. IT Incident Management

Is an IT security event management system in use, and is it operated in an effective manner?

Yes ▼

Do you have defined and documented escalation procedure for fault management and major incident / security incident handling?

Yes ▼

If so please provide summary details.

Managed through our IT help desk, if incidents occur they would be given a different priority and assigned to the appropriate

Has your organisation suffered information technology security related incidents over the past two years? If yes, please provide a summarisation and categorisation under the following headings. (NB. Any information relating to this will be held in strictest confidence)

Yes ▼

Malicious acts/outside

Malicious acts/employees

Virus from non-business issue memory stick. Fortunately identified immediately resolved with no data loss.

Inadvertent errors

Lack of systems or telecommunications availability

Natural disaster

What processes do you have in place to guard against this happening again

Company policy to only use company issue devices with company issue machines enforced.

Design Authoring Software

Fees

Costs are dependent upon the simplicity or complexity of:

- Professional Services offered;
- Number of Disciplines;
- Number of Locations;
- BIM Services Provided;
- Software solutions used;
- Standards, Methods and Processes (SMPs) in use;
- Project numbers and sizes undertaken.

Multiple Site – Standardised Assessment

- What can be assessed for Multiple Site?
- What is Company Specific?
- What is Location Specific?

Reduce costs by standardising Audit requirements

- Reducing Desktop Audit Requirements
 - (1 Large Audit rather than 20 Smaller ones)
- Reduce on Site Audit Requirements
 - Where standardised systems such as IT / HR / Compliance documentation are consistent throughout.

Fees – Overview

The simplest application is based upon a single application fee of £895 and then onsite audit and verification fees. For larger or more complex applications with multiple site locations there are two options:

Option 1 – Basic Application fee of £895 + Large Onsite Audit for each location

Option 2 – Multisite Application fee + Desktop Audit fee + reduced Onsite Audit fee.

Here are some examples..

Fees

Case 1: Small Single Discipline Practice

ABC Architects are a small, single discipline firm of less than 25 employees who provide architectural services out of a single office utilising a common business information standard, software and services.

Cost to complete Certification: **£4,045**

Breakdown:

- £895 Application fee, including document assessment
- £0 Additional documents assessment
- £3,150 Site audit (typically 2 days), write-up, sign-off and validation

Fees

Case 2: Small Multi Discipline Practice

123 Engineering Ltd are a small multi discipline firm of less than 30 employees who provide MEP services (3 Disciplines) out of a single office with software specific information standards.

Cost to complete Certification - **£5,845**

Breakdown:

- £895 Application fee including document assessment
- £750 Additional Document assessment
- £4,200 Site audit (typically 3 days), write-up, sign-off and validation

Fees

Case 3: Large Multi Discipline Practice

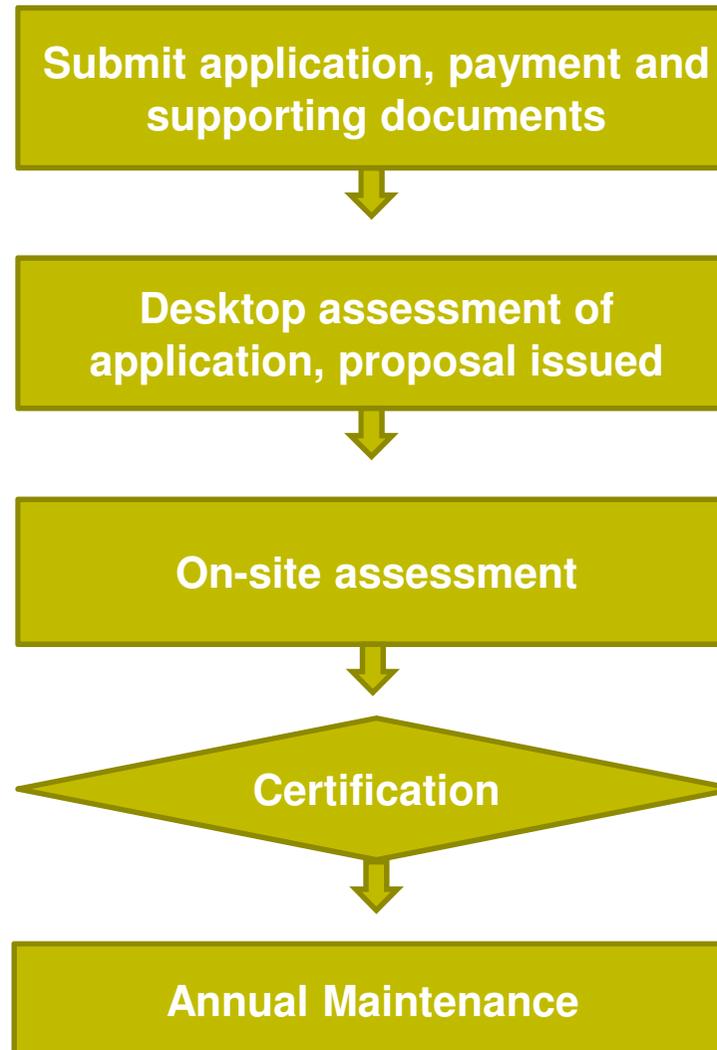

A1 International is a large multi discipline firm (Architects, Structural engineers, Mechanical Engineers and Civil Engineers) who operate out of 8 regional offices providing BIM Services. IT systems, software standards, methods and protocols are identical across all locations.

Cost to complete Certification - **£14,932**

Breakdown:

- £2,672 Multisite Application Fee
- £3,560 Desktop Audit (Additional Document Assessment of SMPs and Case studies)
- £8,700 Site audit (typically 6.5 days), write-up, sign-off and validation

Business Certification process overview

bre

BIM Level 2 Certificated Professional Scheme

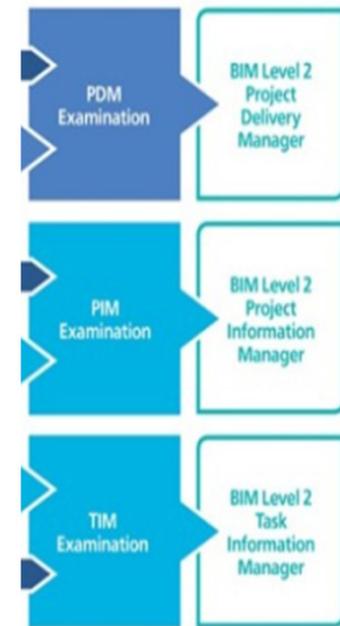

For Individuals...

BIM Level 2 Certificated Professional Scheme

- Based on PAS 1192-2:2013
- Offers independent and third party assessment of BIM Management roles
- CPD requirements of 5 hours per year
- Yearly desktop audit and review to ensure the highest standards are always met
- BRE working towards UKAS accreditation for the scheme
- Developed in conjunction with Avanti

Three levels of BIM Level 2 Certificated Professional

- Scheme is open to anyone wishing to become a BIM Level 2 Certificated Professional if they meet the scheme requirements
- Applicants must undertake and pass an assessment of competence (exam) in one of the three levels of BIM Level 2 Certificated Professional

Fees

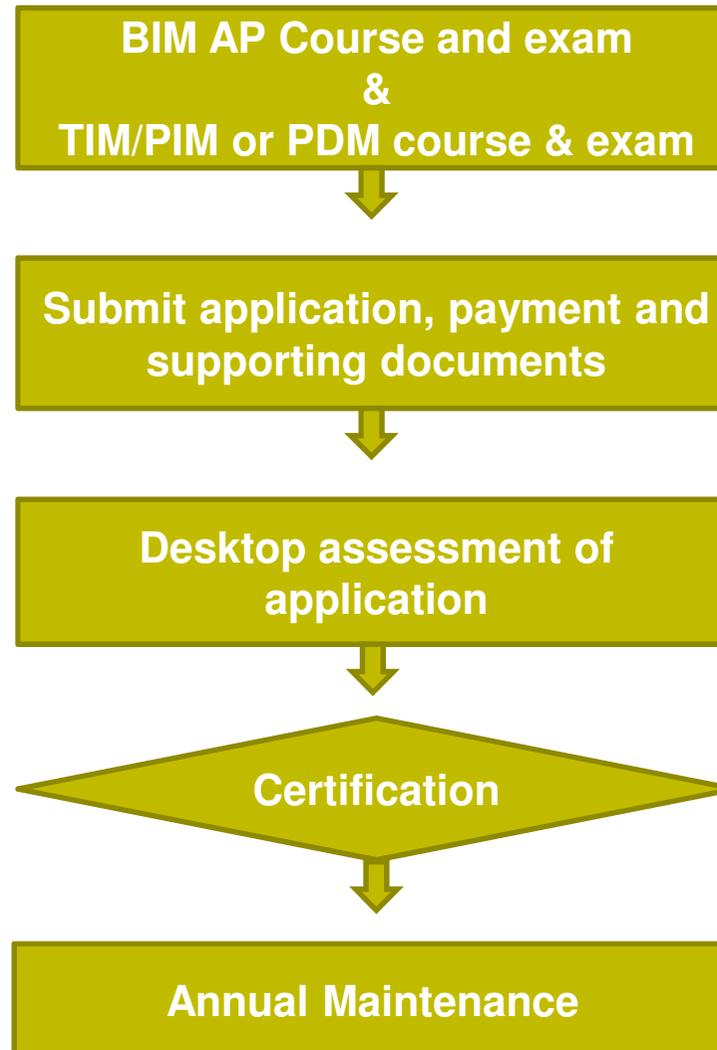

Year 1

- Application fee £295 + VAT
- Yearly desktop audit £700 + VAT

Subsequent years

- Yearly membership fee £100 + VAT
- Yearly desktop audit £700 + VAT

Certification process overview
